BAG SEALER

The Swedes have to learn at an early age how to cross waterways if they want to visit their neighbours. They usually start with a simple plank before progressing on to more exciting tasks, such as building suspension bridges in the mountains.

Our most durable bag sealer will tackle even the toughest of jobs. It will seal any plastic or paper bag with a twisted neck diameter of up to 6 mm. Bags can easily be sealed at different angles.

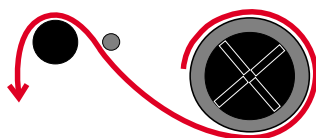

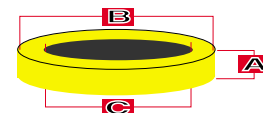

The dispenser takes 12 mm tapes, preferably filmic or paper tapes.

ND 2300 has an inbuilt cutter, ND 2333 has an inbuilt cutter and a heavyweight base.

The dispenser is used in industry, supermarkets, bakeries, confectionery sales etc.

Optional accessories:

Customer's choice of colour
Customer's choice of print on label

See product specifications when ordering, page 6.

Model	Weight gr.	A mm (")	B mm (")	C mm (")	Cutting blade	Units per ship. cart.

ND 2333**231	1930	12 (0.5")	180 (7.5")	76 (3")	Serrated	5

Series 4200

There are 12,000 km of track in Sweden — that's longer than a double track between Stockholm and Boston. SJ (Swedish State Railways) ensures that passengers have a comfortable journey on the X2000, the modern express train.

These graceful "greyhounds," which operate on a large section of the country's rail network, have an average speed of over 200 km/hr in regular traffic, and a speed record of over 275 km/hr. The New York Times and the Washington Post have referred to the express train as "The Best High Speed Train in the World".

BAG SEALER

SAS (Scandinavian Airlines System) flies to 102 destinations in 34 countries. Sweden has shared the airline with her neighbouring countries since 1946. Once you've landed in Stockholm, it's takes about 2 hours to get to Sandviken. The domestic flights between Stockholm and Göteborg carry 1.2 million passengers a year, making it the third largest domestic service in Europe.

The dispenser is used in industry, supermarkets, bakeries, confectionery sales etc. Any plastic or paper bag with a twisted neck diameter of up to 11 mm can be sealed easily and efficiently.

The dispenser takes 19 mm tapes, preferably filmic or paper tapes.

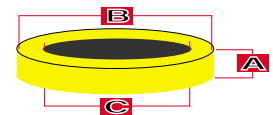

ND 8300 has an inbuilt neck trimmer.

ND 8333 has an inbuilt neck trimmer and a heavyweight base.
